Police Recording of Crime – Definitions

Hate Motivation Definitions

Map of PSNI Policing Districts as of 1st April 2007

Data Quality: The PSNI's statistics on incidents and crimes with a hate motivation are derived from a motivation 'tick box' contained in the Occurrence Management Form which has to be completed by a police officer or member of police staff for each such reported incident/crime. The correct application of a hate motivation for all such incidents/crimes is not quality assured by the PSNI's Central Statistics Branch.

3. Hate Incidents and Crimes

Summary

Definitions

Incidents

Any incident, which may or may not constitute a criminal offence, which is perceived by the victim or any other person, as being motivated by prejudice or hate (ACPO Definition).

Recorded Crimes

- Recorded crimes (sometimes referred to as notifiable offences) are those which are deemed to be indictable or triable-either-way. A full explanation of how recorded crime figures are produced is provided on the last page of this document.
- In the same way as incidents are identified as having a hate motivation, a crime will be recorded as having the relevant hate motivation where the victim or any other person perceives it as such. Not all incidents will result in the recording of a crime.
- Crimes with hate motivations are classified according to the Home Office Counting Rules and form a subset of the overall recorded crime figures.

¹ While the clearance rates are rounded to one decimal place, the clearance rate change in % pts is calculated on the unrounded clearance rates and then rounded to one decimal place.

Incidents

- During 2008/09 the number of homophobic incidents increased by 19 (+11.9%), racist by 14 (+1.4%), sectarian by 11 (+0.7%) and transphobic by 3 (+42.9%). By contrast, during the same period, faith/religion incidents decreased by 22 (-32.4%) and disability incidents fell by 5 (-10.2%). It is likely that these decreases are due to more accurate recording.

Recorded Crimes

- Between 2007/08 and 2008/09 there was a decrease in the number of crimes recorded across most types of hate crimes (the exceptions were racist and homophobic crime where increases were recorded). Crimes with a sectarian motivation fell by 39 (-3.7%), faith/religion by 27 (-43.5%), disability by 14 (-33.3%) and transphobic by 2 (-50.0%). Conversely, the number of crimes with a homophobic motivation increased by 20 (+17.5%), and the number of racist motivated crimes increased by 14 (+1.8%).

Violent Crime and Property Crime

- The majority of all racist and faith/religion motivated crimes were property related (burglary, theft and criminal damage), whereas violent crime (offences against the person, sexual offences and robbery) accounted for the majority of all the homophobic and disability motivated crimes recorded. Sectarian motivated crime was more evenly split between the two types.
- **Racist motivation:** Violent crime represented 39.2%, while property crime accounted for 59.7%.
- **Homophobic motivation:** Violent crime represented 76.1%, while property crime accounted for 23.9%.
- **Faith/Religion motivation:** Violent crime represented 17.1%, while property crime accounted for 80.0%.
- **Sectarian motivation:** Violent crime represented 41.2%, while property crime accounted for 52.4%.
- **Disability motivation:** Violent crime represented 64.3%, while property crime accounted for 35.7%.

Clearance Rates

- During 2008/09 there was an increase in the clearance rates recorded for all types of hate crimes, with the exception of faith/religion where the clearance rate decreased by 4.7% points from 16.1% in 2007/08 to 11.4% in 2008/09.
- The largest percentage point increase in the clearance rate was observed for homophobic crimes, which increased by 5.9% points from 15.8% in 2007/08 to 21.6% in 2008/09. The next largest increase was a 2.4% point increase in the clearance rate for disability motivated crime (increasing from 11.9% in 2007/08 to 14.3% in 2008/09). During the same period, the clearance rate for racist motivated crimes increased from 11.4% to 12.5% (+1.1% points), and the clearance rate for crimes with a sectarian motivation increased from 14.4% to 15.2% (+0.8 % points).

Transphobic Motivations

- There were 10 transphobic incidents recorded during 2008/09, 3 more than were recorded during 2007/08 (7). There were 6 incidents recorded in Coleraine (H District), and 1 each in North Belfast (A District), South Belfast (B District), Fermanagh (F District), and Foyle (G District).
- The number of crimes with a transphobic motivation fell from 4 in 2007/08 to 2 in 2008/09. There was 1 crime recorded in South Belfast (B District), and 1 in Fermanagh (F District). One of the offences was criminal damage, with the other being an assault.
- In 2007/08 there were no crimes with a transphobic motivation cleared. However, one offence of intimidation/harrassment was cleared in Coleraine (H District) during 2008/09, resulting in a clearance rate of 50.0%.

Police Recording of Crime - Definitions

Recorded Crime

Recorded crime figures (sometimes referred to as notifiable offences) detail those crimes and offences (including attempts) recorded by the police which are deemed to be indictable or triable-either-way. Certain closely associated summary offences are also counted in the recorded crime figures.

- **Indictable offences** are those more serious crimes which are tried on indictment in the Crown Court by a judge and jury;
- **Triable-either-way offences** are those offences which, under certain circumstances, are triable either summarily in a magistrates court or on indictment in the Crown Court;
- **Summary offences** are less serious and are tried in a Magistrates Court before a resident magistrate with no jury.

The number of crimes recorded by the police is dependent on two factors:

- Whether the victim or a representative of the victim brings that crime to the attention of the police or on the crime coming to the attention of the police through some other means (such as the police officer being present at the time);
- Whether that incident is determined as being a recordable offence within the categories laid down by the Home Office in the official counting rules.

Clearances

Clearances (or detections as they may alternatively be known) are, broadly speaking, those crimes that have been 'cleared up' by the police. Crimes are counted as 'cleared or detected' in accordance with strict counting rules issued by the Home Office. They are counted on the basis of crimes rather than offenders. For example, if six offenders are involved in a robbery and are all arrested and charged, then this counts as one clearance. Alternatively if only one of the six is identified and charged while the other five remain unidentified and go free, this also counts as one clearance. In this respect clearance data differs from conviction data as conviction data counts offenders while clearance data counts crimes.

The following methods of clearance involve a formal sanction:

- Charging or issuing a summons to an offender;
- Issuing a caution to the offender;
- Having the offence accepted for consideration in court;
- The offender is a juvenile who is dealt with by means of an informed warning, restorative caution or prosecutorial diversion.

In addition, for the most serious offence types ('indictable only' – see recorded crime paragraph above for explanation) a non sanction clearance can be claimed if:

- The Public Prosecution Service (PPS) directs no prosecution; or
- The case cannot proceed because the offender has died.

Violent Crime

Violent crime comprises three main offence groupings: offences against the person, sexual offences and robbery. What violent crime offences have in common is that they involve actual violence or the threat of violence. The degree of violence varies considerably, even between incidents in the same classification. The large majority of incidents categorised as violent crime do not actually involve any significant injury to the victim, although some of the crimes not resulting in injury may still be traumatic for their victims eg threats to kill.

Hate Motivation Definitions

Racist

A racist incident is defined as any incident which is perceived to be racist by the victim or any other person. A racial group can be defined as a group of persons defined by reference to race, colour, nationality or ethnic or national origins (this includes UK National origins ie Scottish, English, Welsh and Irish) and references to a person's racial group refer to any racial group into which he/she falls. Racial group includes the Irish Traveller community.

Homophobic

A homophobic incident is defined as any incident which is perceived to be homophobic by the victim or any other person.

Homophobia can be defined as a fear or dislike directed towards lesbian, gay or bisexual people, or a fear or dislike directed towards their perceived lifestyle, culture or characteristics.

Faith/Religious

A faith/religious incident is defined as any incident which is perceived to be based upon prejudice towards or hatred of the faith of the victim or so perceived by the victim or any other person.

A faith or religious group can be defined as a group of persons defined by reference to religious belief or lack of religious belief. This would include Christians, Muslims, Hindus, Sikhs and different sects within a religion. It also includes people who hold no religious belief at all.

Sectarian

A sectarian incident is defined as any incident which is perceived to be sectarian by the victim or any other person.

The term 'sectarian', whilst not clearly defined, is a term almost exclusively used in Northern Ireland to describe incidents of bigoted dislike or hatred of members of a different religious or political group. It is broadly accepted that within the Northern Ireland context an individual or group must be perceived to be Catholic or Protestant, Nationalist or Unionist, or Loyalist or Republican.

Disability (or Disablist)

A disability related incident is defined as any incident which is perceived to be based upon prejudice towards or hatred of the victim because of their disability or so perceived by the victim or any other person.

Disability can be defined as any physical or mental impairment which has substantial and long-term adverse effect on a person's ability to carry out normal day to day activities.

Transphobic

A transphobic incident is defined as any incident which is perceived to be transphobic by the victim or any other person.

Gender should not be confused with sexual orientation. A transsexual is a person who has 'gender dysphoria' or dissatisfaction with his or her own birth gender. Transsexuals may be lesbian, gay, bisexual or heterosexual and may or may not consider an incident perpetrated against them to be homophobic.
